How to Set Up a Monthly Gift to Canvas Health

Go to the www.CanvasHealth.org webpage and click on GIVE! at the top right.

Then click on the “via our donation page” link which takes you to https://www.canvashealth.org/donate-now/

Choose the amount you want to donate each month, or type in your desired amount in the “Other” box.

Checking that box will give you the option to choose your gift date for either the 1st or 15th day of each month.

After you’ve selected your date, you can set up your payment information. First, enter your billing address and contact information. Then, you can choose to charge your credit card or select direct debit to have the funds transferred from your bank account. Fill in all of the required payment information.

When you’ve finished, click the “Donate” button and your donations will be set up.

Thank you for your generosity!
